1.

Company	:	**X-WAY DESIGNS**
Designation	:	Web Developer
Period	:	February 2023 - Present
Location	:	Jamshedpur, Jharkhand

QUALIFICATION

- ❖ Bachelor of Science in Information Technology from Karim City College, Jamshedpur, Jharkhand, 2022.

PROJECT DETAILS

- ❖ Major Projects Involved (20+ Projects)
- ❖ Worked as a Full-Stack Web Developer on various client-based and in-house projects. Below are some key highlights:

1. Sigma Sales CRM System
- Developed a custom CRM system for managing leads, tracking sales, and generating reports.
- Features included user authentication, role-based access, and dynamic reporting dashboards.

2. Orek Inventory Management
- Built an inventory management system with stock tracking, product listing, and automated order generation.
- Integrated responsive UI with barcode scanning and real-time alert.

3. Alif Academy Learning Platform
- Created an academic learning platform with features like online course listing, lecture uploads, student registration, and assessments.
- Integrated admin panel for managing courses, instructors, and content.

4. E-Commerce Sites (Multiple Clients)
- Developed fully functional e-commerce websites with product management, cart, checkout, and payment gateway integration (Razorpay/PayPal).
- Ensured responsive designs and optimized user experience.

5. E-Commerce Sites (Multiple Clients)
- Delivered professional websites for small businesses, startups, and freelancers.
- Emphasized branding, clean UI/UX, and SEO-friendly structures.
- Core Responsibilities Across Projects:
- Handled end-to-end development, from requirement analysis to deployment.
- Created custom modules and APIs to extend functionality.
- Ensured cross-browser compatibility and mobile responsiveness.
- Debugged and optimized existing applications for better performance.
- Maintained documentation and client communication throughout development lifecycle.

DESCRIPTION

- ➢ I am a passionate and detail-oriented Web Developer with hands-on experience in building dynamic, responsive, and user-focused websites. Over the past several months, I have worked on 20+ successful projects, including e-commerce platforms, client portals, learning management systems, and business websites. I specialize in both front-end and back-end development, with a strong command over PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.

- ➢ My experience spans across project planning, custom module development, debugging, and deployment. I have collaborated closely with clients from various industries to convert their ideas into functional, high-performance websites that meet business goals. With a keen eye for design and a commitment to clean code, I always strive to deliver scalable and optimized web solutions.

- ➢ I am a fast learner, an effective team player, and thrive in challenging environments where I can grow continuously while contributing to the success of the organization.
